

The Affordable Care Act (ACA) established Medical Loss Ratio (MLR) standards for health insurers. Generally, the MLR is the percentage of earned premiums that the insurer spends on health care services and quality improvement activities. If the insurer's MLR is less than the ACA's MLR standards for a group market in the state, the insurer may be required to provide premium rebates in that market. The ACA requires that Blue Cross and Blue Shield of New Mexico (BCBSNM) report annually whether coverage it issues in the individual, small group or large group markets in New Mexico meet MLR standards. Your assistance is needed to classify your coverage for each MLR reporting year. You can provide the required information by logging into your **Blue Access for Employers<sup>SM</sup> (BAE<sup>SM</sup>)** account and selecting the Regulatory Data link, or you can complete, sign, and return this form to the email address, fax number or address below. **Please complete at your earliest opportunity.**
