What is a Primary Care Physician (PCP)?

Your PCP is your personal physician who coordinates all your health care. Although you no longer have to obtain a PCP referral before arranging to receive covered services from another HMO-participating provider, please contact your PCP whenever you have a health need. Because your PCP knows you and your medical history, your PCP is best qualified to coordinate all your medical care, including visits to specialists. **You must choose a PCP upon enrollment.**

What is prior authorization?

It is an approval received from BCBSNM **before** delivery of certain types of services. For certain services to be covered you or your provider must obtain authorization from BCBSNM before you receive those services.

When do I need authorization?

Authorization is required for all inpatient admissions, a few specified services (listed in your benefit booklet), and if you want to go outside the HMO-participating provider network. **Important:** BCBSNM must authorize all nonemergency services of a nonparticipating provider. If services are authorized, you may be responsible for amounts above the covered charge. If authorization is not obtained, benefits will be denied for the services.

Benefit Booklet

Please refer to your *Member's Benefit Booklet* for exclusions, limitations, and more benefit information.

Reminder:

You do NOT need a PCP referral before seeking covered services from an HMO-participating provider. However, if you are **admitted** to a hospital, receive **certain services** (listed in your benefit booklet) or visit a **nonparticipating** provider without first obtaining **prior authorization** from BCBSNM, **the services will not be covered**. Check your provider directory or visit the BCBSNM Web site at www.bcbsnm.com for a list of HMO-participating providers.
