

# Blue Cross and Blue Shield of New Mexico

## Specialty Drug List

### Definition of Specialty Drugs

Specialty medications are generally prescribed for people with complex or ongoing medical conditions such as multiple sclerosis, hemophilia, hepatitis, and rheumatoid arthritis. They typically have one or more of the following characteristics:

- High cost
- Injected or infused, but some may be taken by mouth
- Unique storage or shipment requirements
- Additional education and support required from a health care professional
- Usually not stocked at retail pharmacies

**This list is subject to change without notice.**

To obtain a listing of specialty medications, please call Blue Cross and Blue Shield of New Mexico (BCBSNM) at 800.325.8334 option 5 and a representative will assist you or visit our website at [www.bcbsnm.com](http://www.bcbsnm.com).

Please refer to your plan booklet to determine your specific coverage details.

- \* Subject to exclusive distribution channels
- \*\* May be covered through medical or pharmacy benefit

## What are the advantages of the BCBSNM specialty pharmacy program?

Blue Cross and Blue Shield of New Mexico has selected Triessent<sup>®</sup> as its specialty pharmacy program. Triessent will provide the support you need to get the best results from your prescribed medication therapy:

- Explaining treatment instructions and the importance of taking your medications exactly as prescribed by your doctor
- Helping you manage medication side effects
- Assisting you and your doctor in monitoring progress
- Providing information that can help you understand your complex health condition more completely
- Helping obtain new prescriptions and refills
- Checking with your health plan to coordinate and verify your insurance benefits

## How do I use the BCBSNM specialty pharmacy program?

Call 888.216.6710. You will need your prescription information, the prescribing physician contact information and your health plan ID card. A Triessent care coordinator will collect the information needed to initiate the enrollment process.

## How do I obtain refills?

A patient care coordinator will call to schedule your refill, based on treatment information provided by you and your doctor. Or you can call Triessent at 888.216.6710 and a care coordinator will help you.

## Will all of my prescription medications be dispensed through the BCBSNM specialty pharmacy program?

No. Only select injectable and oral medications will be dispensed through the BCBSNM specialty pharmacy program. You will continue to receive any non-specialty medications through PrimeMail<sup>®</sup> or your retail pharmacy.

You can find out if your medications are available through the BCBSNM specialty pharmacy program by calling 888.216.6710 or checking the BCBSNM web site at [www.bcbsnm.com](http://www.bcbsnm.com).

## Does Triessent have to arrange for my delivery every time I get a new shipment of medication?

Yes. Specialty medications typically require special handling and storage. Regular contact from a care coordinator provides assistance in getting the most from your therapy. Medications can be delivered to the location most convenient for you, including your home, workplace or doctor's office.

## How will my out-of-pocket costs be affected if I decide to use the BCBSNM specialty pharmacy program?

If you use the BCBSNM specialty pharmacy program, you will pay your plan's applicable coinsurance or copay amount for the specialty medication. Your out-of-pocket pharmacy costs will be higher at out of network specialty pharmacies.

## We're here to help

**tel** 888.216.6710

**fax** 866.203.6010

**TTY** 866.230.7268

Triessent's complete specialty pharmacy program includes safe and efficient delivery of specialty medications, education and guidance from experienced professionals about your medication, and assistance with understanding your medical and pharmacy benefits. Triessent provides the tools to help you take charge of your specialty condition.
