Children's Health

Quality Health Standards—Working Together to Improve Patient Health

Blue Cross and Blue Shield of New Mexico (BCBSNM) appreciates the care and attention you provide to Blue Cross Community Centennial members. This tool contains a collection of preventive children's health guidelines, which promote best health practices, selected from the HEDIS[®] standardized performance measures. BCBSNM hopes this tool will convey a better understanding of the standards and key documenting points associated with each standard.

Preventive care guidelines are located under the 'Clinical Resources' tab and educational opportunities are under the 'Education & Reference' tab at bcbsnm.com/provider.

Members may be eligible for Centennial Rewards upon completion of healthy activities.

For more information visit centennialrewards.com.

Measure	Guidelines	Documentation
