

Medicare Part D Formulary Changes 2014 to 2015

Blue Cross MedicareRx (PDP)SM / Blue Cross Medicare Advantage (HMO)SM / Blue Cross Medicare Advantage (HMO-POS)SM / Blue Cross Medicare Advantage (PPO)SM

The 2015 Medicare Part D annual Open Enrollment Period (OEP) began October 15, 2014 and ended on December 7, 2014. On August 8, 2014 the 2015 Blue Cross MedicareRxSM / Blue Cross Medicare AdvantageSM (Blue Cross and Blue Shield of New Mexico (BCBSNM) Medicare Part D's Value and Ideal formularies were granted 'conditional approval' by the Centers for Medicare and Medicaid Services (CMS) and as with all Medicare Part D drug plans you can expect a number of formulary and utilization management changes for 2015. Some of the changes were mandated by CMS (safety concerns, drugs that no longer meet CMS' definition of a 'Part D medication', etc.) but others were a result of dynamic changes in the pharmaceutical marketplace. The Blue Cross MedicareRx / Blue Cross Medicare Advantage 2015 Part D formulary changes include addition of some new drug therapies as well as the migration to some important generic equivalents (e.g. DETROL LA, EVISTA, CYMBALTA, ACTONEL, MICARDIS, AVELOX, etc.) that have and/or will become available in 2015.

A copy of 2014 to 2015 formulary changes (i.e. drug removals and new Prior Authorization and Step Therapy utilization management programs) were included in the Annual Notice of Change (ANOC) that was sent to all current members of Blue Cross MedicareRx / Blue Cross Medicare Advantage Medicare Part D plans. In addition, individual member letters were mailed in late-November 2014, alerting them of important 2015 formulary changes (removals, tier changes, new utilization management programs, etc.) affecting them. Finally, a copy of the 2015 formulary is already available on the Blue Cross MedicareRx / Blue Cross Medicare Advantage website in time for the start of the Medicare Part D OEP. The BCBSNM MAPD and PDP websites are as follows: (MAPD = Blue Cross Medicare Advantage (HMO SNP), Blue Cross Medicare Advantage (HMO) Blue Cross Medicare Advantage (PPO), (PDP = Blue Cross MedicareRx (PDP). Please refer to our list below for a handy reference to the Top 30 medications that will be impacted by a change to the 2015 Blue Cross MedicareRx / Blue Cross Medicare Advantage Value and Ideal formularies and therefore, have the most potential to affect current members. Please note that the shaded fields below reflect changes to the VALUE FORMULARY ONLY! All other changes reflect changes to both Value and Ideal formularies. Requests for coverage determinations, when applicable, can be submitted by the prescribing physician after December 1, 2014 with an effective date of January 1, 2015.
