- Jynarque Switching to Preferred Drug Oct. 1, 2025

- Diabetic Test Strips Change for Members

- Reminder: \$0 Dollar Emergency-Use Medications

Reminder: Quarterly Pharmacy Changes are published in two parts. The part 1 article covers changes that require member notification – drug list revisions/exclusions, dispensing limits, utilization-management changes and general information on pharmacy benefit program updates. Our members receive letters regarding these changes. This part 2 article contains coverage additions, utilization management updates and any other pharmacy program updates. These updates do not require member notification.

Drug List Changes

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some additions (new to coverage) and/or some coverage tier changes (drugs moved to a lower out-of-pocket payment level) will be made to the drug lists for [Blue Cross and Blue Shield of New Mexico](#). **Additions effective Oct. 1, 2025, and prior updates are outlined below.**

New legislative changes: In compliance with [New Mexico Senate Bill 135](#), which removes step therapy or prior authorization requirements from certain medications, New Mexico fully-insured group members were transitioned to the new Performance Full Drug List, effective Jan. 1, 2025.

Utilization Management Program Changes

Utilization Management programs are implemented to regularly review the appropriateness of medications within drug-therapy programs, and as a result, may adjust dispensing limits, prior authorization or step-therapy requirements. The following drug programs reflect those changes.

Reminder: In compliance with [New Mexico Senate Bill 135](#), New Mexico fully-insured group members were transitioned to the new Performance Full Drug List, effective Jan. 1, 2025. The bill removes step therapy or prior authorization requirements from certain medications. These clinical program changes were applied to both the Performance Full Drug List and the Health Insurance Exchange Drug List, as applicable.

Standard Utilization Management Program Updates

Prior authorization and step therapy programs for standard-pharmacy benefit plans correlate to a member's drug list. Not all standard programs apply since updates are based on the member's current drug list. The prescription drugs tab on [bcbsnm.com](#) lists the current drug lists and dispensing limits. Members may also log in to [Blue Access for MembersSM](#) or [MyPrime.com](#) for a variety of online resources.

Please Note: The PA programs for standard pharmacy benefit plans correlate to a member's drug list. Not all standard PA programs may apply, based on the member's current drug list. A list of PA programs per drug list is posted on the member pharmacy section of [bcbsnm.com](#).

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card or log into any of the online resources.

Dispensing Limit Changes

The prescription-drug benefit program BCBSNM includes coverage limits on certain medications and drug categories. Dispensing limits are based on U.S. Food and Drug Administration approved dosage regimens and product labeling.

Dispensing Limit changes are listed below with their effective date.

View the most up-to-date drug list and list of drug dispensing limits, visit the [provider pharmacy webpage](#).

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card. Members may also log in to [Blue Access for MembersSM](#) or [MyPrime.com](#) for more online resources.

Change in Benefit Coverage for Select High-Cost Products

Several high-cost products with available lower cost alternatives will be excluded on the pharmacy benefit for select drug lists. This change impacts our members who have prescription-drug benefits administered by Prime Therapeutics[†]. This change is part of an ongoing effort to ensure our members and employer groups have access to safe, cost-effective medications.

Please note: Members were not notified of this change because either there is no utilization, or the pharmacist can easily fill a member's prescription with the equivalent without needing a new prescription from the doctor.

The following drugs are excluded on select drug lists.

Pharmacy Benefits Updates

Visit the [provider pharmacy page](#) for resource materials. Stay tuned to our news and updates or the [Blue Review](#) for additional pharmacy program updates.

GLP-1 Dispensing Limit Change to Reduce Drug Waste

A new dispensing limit for GLP-1 drugs used to treat type 2 diabetes will go into effect Oct. 1, 2025, for IFM and groups with Prime. Members will be limited to one injectable/oral tablet drug product and at the same dose strength (e.g. 4 mg/3 mL pen) per 28 days.

- For example, a member could fill an injectable GLP-1 prescription but not add an oral GLP-1 prescription within the same time period.
- This dispensing limit aims to help support industry and market availability and dispensing pharmacy practices, while helping to reduce drug waste.

BCBSNM notified members with recent claims regarding this change. Although most members will not meet or exceed this new limit, they were sent letters for awareness in case their health care provider changes the dosing (e.g. switching to a different drug product or a different dosing strength within the time period).

If a member's health care provider prescribes a different dose within the 28-day window, or if the member cannot tolerate their current GLP-1 product and needs to switch to a different drug, the member will undergo clinical review.

Jynarque Switching to Preferred Drug Oct. 1, 2025

Starting Oct. 1, the brand drug, Jynarque, will be a preferred drug on all IFM and group drug lists. Claims for generic tolvaptan will be rejected at point of sale with a message that says to use Jynarque instead.

For questions regarding Jynarque coverage, members can call the number on their ID card.

Diabetic Test Strips Change for Members

Beginning Oct. 1, 2025, Contour Next, FreeStyle and Precision Xtra test strips will be the preferred test strips for all group and Individual & Family Markets drug lists. BCBSNM made the change in order to prevent interruption of care for our members following [LifeScan's bankruptcy announcement](#).

- LifeScan (OneTouch) test strips will be excluded from managed drug lists and change to a non-preferred brand on open drug lists.
- FreeStyle and Precision Xtra will be added as a preferred brand. Contour test strips by Ascensia will remain a preferred brand.

Member mailings: Impacted members will receive a letter (via mail and/or digitally) at least 60 days before the effective date.

Member resources: Members can get a free blood glucose meter for the preferred brand of test strips. Members can refer to this [glucose meter flyer](#).

Reminder: \$0 Dollar Emergency-Use Medications

Since Jan. 1, 2025, or upon renewal, select-acute medications may be available at a \$0 cost-share for members needing immediate-medical treatment. These medications are typically used for emergency-use or life-saving situations. Removing cost barriers to these medications gives members immediate access to these treatments during urgent, medical events.

For more information about this benefit, please read the [member flyer](#).

The \$0 cost share will apply for applicable benefit plans at any in-network pharmacy, including both preferred and non-preferred pharmacies for those plans on the Preferred Network.

¹Third-party brand names are the property of their respective owner.

²This list is not all inclusive. Other medicines may be available in this drug class.

³Coverage of medications is still subject to the limits, exclusions and out-of-pocket requirements based on the member's plan.

*This drug is based on group-specific coverage. Members should refer to their benefit materials for coverage details or call the number on the back of their member ID card.

Please note: If coverage of the member's medication is changed on their prescription drug list, the amount the member will pay for the same medication under this preventive drug benefit may also change.

The information mentioned here is for informational purposes only and is not a substitute for the independent medical judgment of a physician. Physicians are to exercise their own medical judgment. Pharmacy benefits and limits are subject to the terms set forth in the member's certificate of coverage which may vary from the limits set forth above. The listing of any drug or classification of drugs is not a guarantee of benefits. Members should refer to their certificate of coverage for more details, including benefits, limitations and exclusions. Regardless of benefits, the final decision about any medication is between the member and their health care provider.
