

Pharmacy Program Updates: Quarterly Pharmacy Changes Effective July 1, 2022 – Part 2

IMPORTANT PHARMACY BENEFIT REMINDERS

Jan. 1, 2022 is the start of a new year and renewed or new health insurance benefits for most Blue Cross and Blue Shield of New Mexico (BCBSNM) members. As you see your patients, please consider the following reminders:

- Members' benefits may be based on a new drug list when their plans renew in 2022.
- Discuss your patients' benefits during an office visit or confirm their benefits by calling the number on their ID cards.
- Review the prescription drug list before prescribing medications.
- If your patients need a coverage exception or prior authorization request in order to take a medicine that may be excluded from coverage or included in a utilization management program, please visit the Prior Authorization/Step Therapy Programs section of our provider website at bcbsnm.com/provider for the form and more information.

Treatment decisions are *always* between you and your patients. Coverage is subject to the terms and limits of your patients' benefit plans. Please advise them to review their benefit materials for details.

DRUG LIST CHANGES

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some additions (new to coverage) and/or some coverage tier changes (drugs moved to a lower out-of-pocket payment level) will be made to the BCBSNM drug lists.

Please note: Revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) were included in the July [Quarterly Pharmacy Changes Part 1 article](#). Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes.

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card. Members may also visit *bcbsnm.com* and log in to Blue Access for MembersSM (BAMSM) or MyPrime.com for a variety of online resources.

Split Fill Program Pharmacy Expansion

Starting July 1, 2022, members may use any in-network pharmacy, based on their benefits, that can dispense the medication.

Background:

The Split Fill Program was only applicable at select in-network specialty pharmacies, including specialty pharmacies participating in the BCBSNM Oral Oncology Network and Limited Distribution pharmacies.

Reminder:

BCBSNM offers its members and groups a Split Fill Program to reduce waste and help avoid costs of select specialty medications that may go unused. Members new to therapy (or have not had claims history within the past 120 days for the drug) are provided partial, or "split," prescription fills for up to three months.

The Split Fill Program applies to a specific list of drugs known to have early discontinuation or dose modification. You can view the current list of drugs and find more information on the [Split Fill Program](#) on our Provider website.

Please call the number on the member's ID card to verify coverage, or for further assistance or clarification on your patient's benefits.

Prime Therapeutics LLC is a pharmacy benefit management company. BCBSNM contracts with Prime to provide pharmacy benefit management and related other services. In addition, contracting pharmacies are contracted through Prime Therapeutics. The relationship between BCBSNM and contracting pharmacies is that of independent contractors. BCBSNM, as well as several independent Blue Cross and Blue Shield Plans, has an ownership interest in Prime. MyPrime.com is an online resource offered by Prime Therapeutics.

The information mentioned here is for informational purposes only and is not a substitute for the independent medical judgment of a physician. Physicians are to exercise their own medical judgment. Pharmacy benefits and limits are subject to the terms set forth in the member's certificate of coverage which may vary from the limits set forth above. The listing of any particular drug or classification of drugs is not a guarantee of benefits. Members should refer to their certificate of coverage for more details, including benefits, limitations and exclusions. Regardless of benefits, the final decision about any medication is between the member and their health care provider.
