

# Pharmacy Program Updates: Quarterly Pharmacy Changes Effective Jan. 1, 2022 – Part 1

#### **PHARMACY NETWORK CHANGES**

Some Blue Cross and Blue Shield of New Mexico (BCBSNM) members' plans may have experienced changes to the pharmacy network as of Jan. 1, 2022. Some members' plans may have moved to a new pharmacy network and some members' plans may experience changes to the pharmacies participating within the network.

Members who continue to fill prescriptions at a pharmacy no longer in their network will pay more. In most cases, no action is required on your part for any of these pharmacy network changes as members can easily transfer prescriptions to a nearby in-network pharmacy. If your office stores pharmacy information on your patients' records, you may want to ask your patient which pharmacy is their preferred choice.

## **IMPORTANT PHARMACY BENEFIT REMINDERS**

Jan. 1, 2022 is the start of a new year and renewed or new health insurance benefits for most BCBSNM members. As you see your patients, please consider the following reminders:

- Members' benefits may be based on a new drug list when their plans renew in 2022.
- Discuss your patients' benefits during an office visit or confirm their benefits by calling the number on their ID cards.
- Review the prescription drug list before prescribing medications.
- If your patients need a coverage exception or prior authorization request in order to take a medicine that may be excluded from coverage or included in a utilization management program, please visit the Prior Authorization/Step Therapy Programs section of our provider website at bcbsnm.com/provider for the form and more information.

Treatment decisions are *always* between you and your patients. Coverage is subject to the terms and limits of your patients' benefit plans. Please advise them to review their benefit materials for details.

#### **DRUG LIST CHANGES**

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) will be made to the BCBSNM drug lists. Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes. **Changes effective Jan. 1, 2022 are outlined below.** 

You can view a preview of the January drug lists on our Member Prescription Drug Lists website. The final lists will be available on both the <u>Member Prescription Drug Lists website</u> and Pharmacy Program section of our Provider website closer to the January 1 effective date.

The Quarterly Pharmacy Changes Part 2 article with more recent coverage additions will also be published closer to the January 1 effective date.

**Please Note:** If you have patients with an individual benefit plan offered on/off the New Mexico Health Insurance Marketplace, they may be impacted by annual drug list changes. You can view a list of these changes on our Individual and Family Member website.

## Review Drug List Updates (Coverage Tier 1 to Tier 2 Changes) - As of Jan. 1, 2022

The generic drug changes listed below apply to members with a pharmacy benefit plan that includes a cost share differential for generic drugs (e.g. 5-tier or higher plan design with preferred generic and non-preferred generic lower tiers). The following drugs are moving from a preferred generic (tier 1) to a non-preferred generic (tier 2), effective Jan. 1, 2022. Members may pay more for these drugs.

Drug <sup>1</sup>	Drug Class/Condition Used For

#### **DISPENSING LIMIT CHANGES**

The BCBSNM prescription drug benefit program includes coverage limits on certain medications and drug categories. Dispensing limits are based on U.S. Food and Drug Administration (FDA) approved dosage regimens and product labeling. **Changes by drug list are listed on the charts below.** 

BCBSNM letters all members with a claim for a drug included in the Dispensing Limit Program, regardless of the prescribed dosage. This means members may receive a letter even though their prescribed dosage doesn't meet or exceed the dispensing limit.

#### Effective Jan. 1, 2022:

Drug Class and Medication(s) <sup>1</sup>	Dispensing Limit(s)			
Basic, Enhanced, Balanced, Performance, Performance Select Drug Lists				
Deferasirox				
deferasirox 125 mg tablet for oral suspension	30 tablets per 30 days			
(EXJADE)				
deferasirox 250 mg tablet for oral suspension	30 tablets per 30 days			
(EXJADE)				
deferasirox 500 mg tablet for oral suspension	90 tablets per 30 days			
(EXJADE)				
deferasirox 90 mg tablet (JADENU)	30 tablets per 30 days			
deferasirox 180 mg tablet (JADENU)	30 tablets per 30 days			
deferasirox 360 mg tablet (JADENU)	180 tablets per 30 days			
deferasirox 90 mg sprinkle granules (JADENU)	30 packets per 30 days			
deferasirox 180 mg sprinkle granules (JADENU)	30 packets per 30 days			
deferasirox 360 mg sprinkle granules (JADENU)	180 packets per 30 days			
Supplemental Therapeutic Alternatives				
Elepsia XR 1000 mg tablet (levetiracetam)	90 tablets per 30 days			
Elepsia XR 1500 mg tablet (levetiracetam)	60 tablets per 30 days			
Therapeutic Alternatives				
ergotamine w/ caffeine tablet 1-100 mg	40 tablets per 28 days			
(CAFERGOT)				
ketoprofen 25 mg capsule	360 capsules per 30 days			
Niacor 500 mg tablet (niacin)	360 tablets per 30 days			
	inced Drug Lists			
Empaveli				
pegcetacoplan subcutaneous soln 54 mg/ml	8 vials per 28 days			
(EMPAVELI)*				
Verquvo				
vericiguat tablet 2.5 mg (VERQUVO)*	30 tablets per 30 days			
vericiguat tablet 5 mg (VERQUVO)*	30 tablets per 30 days

# **UTILIZATION MANAGEMENT PROGRAM CHANGES**

- Effective Jan. 1, 2022, the following changes will be applied:
  - The Accrufer PA program will be added to the Balanced, Performance and Performance Select Drug Lists.\*
    - Note: This program will be added to the Basic and Enhanced Drug Lists on April 1, 2022.
  - The Kerendia PA program will be added to the Balanced, Performance and Performance Select Drug Lists.\*
    - Note: This program will be added to the Basic and Enhanced Drug Lists on April 1, 2022.
  - The Elagolix PA program will change its name to Elagolix/Relugolix and the target drug Myfembree will be added to the Balanced, Performance and Performance Select Drug Lists.

<sup>\*</sup> Not all members may have been notified due to limited utilization.

- Note: Myfembree will be added to the Basic and Enhanced Drug Lists on April 1, 2022.
- Target Migranal will be removed from the Therapeutic Alternatives PA program and added to the Acute Migraine Agents PA program. This change will apply to the Basic, Enhanced, Balanced, Performance and Performance Select Drug Lists.
- Targets Nurtec ODT and Ubrelvy will be removed from the Acute Migraine Agents PA program and added to the Calcitonin Gene-Related Peptide (CGRP) PA program. This change will apply to the Basic, Enhanced, Balanced, Performance and Performance Select Drug Lists.
- Target Nexium Granules (esomeprazole) will be removed from the non-standard Proton Pump Inhibitors (PPIs) ST program and added to the Alternative Dosage Form PA program. This change will apply to the Basic, Enhanced, Balanced, Performance and Performance Select Drug Lists.

Members were notified about the PA standard program changes listed in the tables below.

#### Targeted drugs added to current pharmacy PA standard programs, effective Jan. 1, 2022:

Drug Category	Targeted Medication(s) <sup>1</sup>			
Basic a	Basic and Enhanced Drug Lists			
Empaveli	pegcetacoplan subcutaneous soln 54 mg/mL (EMPAVELI)*			
Supplemental Therapeutic Alternatives  Elepsia XR 1000 mg tablet (levetiracetam)*, Elepsia 1500 mg tablet (levetiracetam)*				
Verquvo	vericiguat tablet 2.5 mg (VERQUVO)*, vericiguat tablet 5 mg (VERQUVO)*, vericiguat tablet 10 mg (VERQUVO)*			
Basic, Enhanced, Balanced, Performance and Performance Select Drug Lists				
Deferasirox	deferasirox 125 mg tablet for oral suspension (EXJADE), deferasirox 250 mg tablet for oral suspension (EXJADE), deferasirox 500 mg tablet for oral suspension (EXJADE), deferasirox 90 mg tablet (JADENU), deferasirox 180 mg tablet (JADENU), deferasirox 360 mg tablet (JADENU), deferasirox 90 mg sprinkle granules (JADENU), deferasirox 360 mg sprinkle granules (JADENU), deferasirox 360 mg sprinkle granules (JADENU)			
Therapeutic Alternatives	ergotamine w/ caffeine tablet 1-100 mg (CAFERGOT), flurandrenolide lotion 0.05% (CORDRAN), Halog Solution 0.1% (halcinonide), hydrocortisone lotion 2% (ALA SCALP), ketoprofen 25 mg capsule, Lexette Foam 0.05% (halobetasol propionate), Niacor 500 mg tablet (niacin)			

<sup>&</sup>lt;sup>1</sup>Third-party brand names are the property of their respective owner.

<sup>\*</sup> Not all members may have been notified due to limited utilization.

<sup>\*</sup> Not all members may have been notified due to limited utilization.

#### Drug categories added to current pharmacy ST standard programs, effective Jan. 1, 2022:

Drug Category	Targeted Medication(s) <sup>1</sup>	
Basic and Enhanced Drug Lists		
SGLT-2 Inhibitors and Combinations	Invokamet 50-1000 mg (canagliflozin/metformin)*, Invokamet 150-500 mg (canagliflozin/metformin)*, Invokamet 150-1000 mg (canagliflozin/metformin)*, Invokamet XR 50-500 mg (canagliflozin/metformin ER)*, Invokamet XR 50-1000 mg (canagliflozin/metformin ER)*, Invokamet XR 150-500 mg (canagliflozin/metformin ER)*, Invokamet XR 150-1000 mg (canagliflozin/metformin ER)*, Invokana 100 mg (canagliflozin)*, Invokana 300 mg (canagliflozin)*, Qtern 5-5 mg (dapagliflozin/saxagliptin)*, Qtern 10-5 mg (dapagliflozin/saxagliptin)*, Segluromet 2.5-500 mg (ertugliflozin/metformin)*, Segluromet 7.5-500 mg (ertugliflozin/metformin)*, Segluromet 7.5-1000 mg (ertugliflozin/metformin)*, Steglatro 5 mg (ertugliflozin)*, Steglatro 5 mg (ertugliflozin)*, Steglatro 15 mg (ertugliflozin)*, Steglujan 5-100 mg (ertugliflozin/sitagliptin)*, Steglujan 15-100 mg (ertugliflozin/sitagliptin)*	

<sup>&</sup>lt;sup>1</sup>Third-party brand names are the property of their respective owner.

Per our usual process of member notification prior to implementation, targeted mailings were sent to members affected by drug list revisions and/or exclusions, dispensing limit, prior authorization program and step therapy program changes. For the most up-to-date drug list and list of drug dispensing limits, visit the Pharmacy Program section of our Provider website.

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card. Members may also visit *bcbsnm.com* and log in to Blue Access for Members<sup>SM</sup> (BAM<sup>SM</sup>) or MyPrime.com for a variety of online resources.

## **Diabetic Test Strips at a Reduced Cost-Share**

Effective Jan. 1, 2022 (regardless of renewal), select diabetic test strips will be moved to a lower tier from a preferred brand to either a non-preferred generic or generic tier, based on plan benefits.

**Details:** This will apply across all drug lists for our group BCBSNM members.

- This benefit change applies at retail and home delivery pharmacies.
- Dispensing/quantity limits will still apply.
- Any additional charges for using a non-preferred or out-of-network pharmacy will still apply. Note:
   Some members' benefit plans may include a Preferred Pharmacy Network, which offers reduced out-of-pocket expenses if members use a preferred pharmacy instead.
- The drug list publications will not show the distinction in tier change.

If your patients have questions, please advise them to call the number on their ID card to verify coverage and confirm if their pharmacy of choice offers the diabetic test strips at a reduced cost-share.

<sup>\*</sup> Not all members may have been notified due to limited utilization. Continuation of therapy will not be in place. Members on a current drug regimen will be impacted.

#### **Change in Benefit Coverage for Select High-Cost Products**

Several high-cost products that either are new to market or have therapeutic equivalents available have been excluded on the pharmacy benefit for select drug lists. This change impacts BCBSNM members who have prescription drug benefits administered by Prime Therapeutics. This change is part of an ongoing effort to make sure our members and employer groups have access to safe, cost-effective medications.

Please note: Members were not notified of these changes because there is no utilization or the pharmacist can easily fill a member's prescription with the equivalent without needing a new prescription from the doctor. The following drugs are excluded on select drug lists:

Product(s) No Longer Covered <sup>1*</sup>	Condition Used For	Covered Alternative(s) <sup>1,2</sup>
ACCRUFER	IRON DEFICIENCY	OTC IRON
DERMACINRX PRETRATE	PREGNANCY <sup>†</sup>	PRENATAL 19, VINATE M, PRENATAL+FE TAB 29-1, TRINATE, SE-NATAL 19
DICLOFENAC POTASSIUM 25 MG TABLETS	PAIN	DICLOFENAC POT 50 MG, MELOXICAM, IBUPROFEN, NAPROXEN
TERIPARATIDE SOLN PEN-INJ 620 MCG/2.48 ML	OSTEOPOROSIS	TYMLOS OR FORTEO

<sup>1</sup> All brand names are the property of their respective owners.

Please call the number on the member's ID card to verify coverage, or for further assistance or clarification on your patient's benefits.

#### Prescription Opioid Duration Limits to Change for Select Members 19 Years of Age and Younger

BCBSNM's Appropriate Use of Opioids program is reducing the 7-day supply limit on an initial fill of an immediate-release opioid medication to a 3-day supply limit effective Jan. 1, 2022.

#### The Details:

This change applies to select members 19 years of age and younger who are considered opioid naïve.

- Opioid naïve means the member does not have opioids on hand within the past 60 days per pharmacy claims.
- No member lettering is needed due to acute or one-time use of opioids.
- Members with an oncology medication on hand in the past 90 days per pharmacy claims will not be subject to the day supply limit.
- If members have an oncology or hospice diagnosis and a recent opioid fill (within the past six months), continuation of therapy will be in place.
- Once the first three-day supply has been filled, later fills will not call for the three-day duration need, as long as the member is not opioid naïve.
- Prior authorization is required for members to fill an opioid prescription at the pharmacy if they
  exceed the program limit. Prescribing physicians can find the authorization request form on the
  Prior Authorization/Step Therapy Programs section of our provider website at
  bcbsnm.com/provider.

<sup>2</sup> This list is not all-inclusive. Other products may be available.

<sup>\*</sup> This chart applies to members on the Basic, Multi-Tier Basic, Enhanced and Multi-Tier Enhanced Drug Lists.

<sup>†</sup> The prenatal products also apply to members on the Balanced, Performance and Performance Select Drug Lists.

#### The Centers for Disease Control and Prevention (CDC) Says:

- The treatment of acute pain can lead to long-term opioid use.<sup>1</sup>
- For patients to safely use opioid therapy for acute pain, clinicians should prescribe the lowest effective dose of immediate-release opioids – three days or less will often be sufficient.<sup>1</sup>
- Adolescents who misuse opioid medication commonly use from their leftover prescription.<sup>1</sup>

#### Reminder:

The Appropriate Use of Opioids Program promotes safe and effective use of prescription opioids for our members who have prescription drugs benefits administered through Prime Therapeutics<sup>®</sup>.

Please call the number on the member's ID card to verify coverage, or for further assistance or clarification on your patient's benefits.

#### ACA Contraceptive List Changes Effective Jan. 1, 2022

Select brand products are being removed from coverage on the pharmacy benefit for ACA-compliant health plans effective Jan. 1, 2022. BCBSNM members may be impacted based on their prescription drug list and contraceptive coverage benefits.

**Member notices:** Impacted members will receive a letter explaining this change and listing covered alternatives starting late October 2021.

#### Reminders:

- Generic medications and/or lower-cost alternatives remain covered at \$0 cost-share under the pharmacy benefit.
- The 2022 ACA Contraceptive List will be available on our member websites.

Please call the number on the member's ID card to verify coverage, or for further assistance or clarification on your patient's benefits.

#### **HDHP-HSA Preventive Drug Program Reminder**

Select BCBSNM members' High Deductible Health Plan (with a Health Savings Account) may include a preventive drug program, which offers a reduced or \$0 cost-share for members using certain medications for preventive purposes. *Please note:* If coverage of the member's medication is changed on their prescription drug list, the amount the member will pay for the same medication under their preventive drug benefit may also change.

Please call the number on the member's ID card to verify coverage, or for further assistance or clarification on your patient's benefits.

#### **New Insulin Products Available for Coverage**

Starting Jan. 1, 2022, **Semglee (insulin glargine-yfgn)** and **insulin glargine-yfgn (unbranded Semglee)** will be added to the preferred brand tier on select drug lists, and **Lantus (insulin glargine)** will be excluded as a benefit denial across all drug lists.

This drug list change is the result of the U.S. Food and Drug Administration (FDA)'s approval of Semglee as the **first interchangeable biosimilar** insulin product to treat adults and pediatric patients with Type 1 diabetes mellitus and adults with Type 2 diabetes mellitus on July 28, 2021. <sup>1</sup>

#### Background:

- An interchangeable biosimilar is a biologic drug considered highly similar to and has no clinically meaningful differences from the original biologic. There are no clinically meaningful differences between Semglee/insulin glargine-yfgn (unbranded) and Lantus (original biologic).
- The FDA defines biologic drugs or biologics as, "generally large, complex molecules that are made from living sources such as bacteria, yeast and animal cells."

## Why it matters:

- Semglee/insulin glargine-yfgn (unbranded) can be substituted for Lantus at the pharmacy in the same way that a generic drug is being substituted for a brand drug meaning the pharmacist does not need a new prescription from the doctor.
- Interchangeable biosimilars have undergone studies to ensure members can safely switch to the biosimilar without safety or efficacy issues.
- Biosimilars and interchangeable biosimilars are important because they can introduce competition into the market at lower prices than the original biologic, which can help lower overall drug prices.

**Member notices:** Members will receive a letter explaining the insulin changes listed below in early November 2021.

#### **Insulin Coverage Updates by Drug Lists:**

# Basic, Multi-Tier Basic, Enhanced, Multi-Tier Enhanced and Performance Drug Lists – Changes effective Jan. 1, 2022
