

Select Medication List

Professional/ancillary electronic (ANSI 837P) and paper (CMS-1500) claims for drugs must include National Drug Code (NDC) data to be accepted for processing by Blue Cross and Blue Shield of New Mexico (BCBSNM). If NDC data isn't included as required by BCBSNM, your claim will be returned to you. Filing NDCs, in conjunction with the appropriate Healthcare Common Procedure Coding System (HCPCS) and/or Current Procedural Terminology (CPT®) information, enables BCBSNM to reimburse you, in most instances, for the individual medication that was prescribed (instead of for a range of NDCs within HCPCS/CPT codes).

NDC pricing supports other initiatives, such as this Select Medication List. This list will be developed in stages to add specific drugs within particular classes or categories, based on safety and cost effectiveness. Choosing a drug from the Select Medication List and billing for it with the appropriate NDC will result in a higher reimbursement rate than the rate applied for other, non-listed drugs in the same class.

Currently, there are two medications on the Select Medication List:

Orthovisc®	These are injections from the viscosupplementation class and are used primarily for osteoarthritis knee pain relief.
Synvisc-One®	

Reimbursement for specialty pharmacy drugs, including those on the Select Medication List, is updated monthly, as applicable. Increased reimbursement is limited to the medications on the Select Medication List. BCBSNM will be adding medications to the Select Medication List in the future; however, details regarding specific medications and timelines haven't been finalized. Any changes will be announced in the News and Updates. Information also may be published in our *Blue Review*.

NDC Billing Resources

- An NDC Units Calculator Tool and the NDC reimbursement fee schedule are available to contracted providers who are registered users on our secure Blue Access for ProvidersSM site. To log in or register for Blue Access for Providers, look for the National Drug Codes (NDCs): Billing Resources box on our Provider website homepage.
- The NDC Units Calculator Tool is also available on the Availity® Provider Portal for registered Availity users. See the user guide in our Provider Tools section for details.
- For quick reference purposes, view the [NDC Billing Guidelines](#), answers to [Frequently Asked Questions \(FAQs\)](#) and other information on the Claim Submission page.

The listing of any particular drug or classification of drugs is not a guarantee of benefits. Payment of benefits is subject to several factors, including, but not limited to, eligibility at the time of service, terms, conditions, limitations and exclusions set forth in the member's policy or benefits document. Members should refer to their certificate of coverage for more details, including benefits, limitations and exclusions. Regardless of benefits, the final decision about any medication is between the member and their health care provider.

Orthovisc is a registered trademark of DePuy Synthes. Synvisc-One is a registered trademark of Genzyme Corporation. DePuy Synthes and Genzyme Corporation are independent third-party vendors and are solely responsible for the products and services they provide. The mention of a specific product or vendor is not an endorsement by BCBSNM, and BCBSNM makes no representations or endorsements regarding any of the vendors listed here.

Availity is a trademark of Availity, LLC, a separate company that operates a health information network to provide electronic information exchange services to medical professionals. Availity provides administrative services to BCBSNM. BCBSNM makes no endorsement, representations or warranties regarding any products or services provided by third party vendors. If you have any questions about the products or services provided by such vendors, you should contact the vendor(s) directly.
