

If a conflict arises between a Clinical Payment and Coding Policy and any plan document under which a member is entitled to Covered Services, the plan document will govern. If a conflict arises between a CPCP and any provider contract pursuant to which a provider participates in and/or provides Covered Services to eligible member(s) and/or plans, the provider contract will govern. "Plan documents" include, but are not limited to, Certificates of Health Care Benefits, benefit booklets, Summary Plan Descriptions, and other coverage documents. Blue Cross and Blue Shield of New Mexico may use reasonable discretion interpreting and applying this policy to services being delivered in a particular case. BCBSNM has full and final discretionary authority for their interpretation and application to the extent provided under any applicable plan documents.

Providers are responsible for submission of accurate documentation of services performed. Providers are expected to submit claims for services rendered using valid code combinations from Health Insurance Portability and Accountability Act approved code sets. Claims should be coded appropriately according to industry standard coding guidelines including, but not limited to: Uniform Billing Editor, American Medical Association, Current Procedural Terminology, CPT® Assistant, Healthcare Common Procedure Coding System, ICD-10 CM and PCS, National Drug Codes, Diagnosis Related Group guidelines, Centers for Medicare and Medicaid Services National Correct Coding Initiative Policy Manual, CCI table edits and other CMS guidelines.

Claims are subject to the code edit protocols for services/procedures billed. Claim submissions are subject to claim review including but not limited to, any terms of benefit coverage, provider contract language, medical policies, clinical payment and coding policies as well as coding software logic. Upon request, the provider is urged to submit any additional documentation.

## **Colorectal Cancer Screening**

**Policy Number: CPCPLAB071** 

Version 1.0

**Approval Date: April 28, 2025** 

Plan Effective Date: August 8, 2025

## **Description**

The plan has implemented certain lab management reimbursement criteria. Not all requirements apply to each product. Providers are urged to review Plan documents for eligible coverage for services rendered.

#### **Reimbursement Information:**

- 1. For asymptomatic individuals 45 to 75 years of age, annual screening for colorectal cancer with a fecal immunochemical test/FIT (preferred) **or** a guaiac fecal occult blood test/gFOBT **may be reimbursable.**
- 2. Colorectal cancer screening using FIT-DNA (Cologuard™ or Cologuard Plus™– once every 3 years) **may be reimbursable.**
- 3. The use of methylated Septin 9 (ColoVantage) for colorectal cancer screening is not reimbursable.
- 4. For average risk, asymptomatic individuals over 75 years of age, colorectal cancer screening **is not reimbursable.**
- 5. Colorectal cancer screening using **any** of the following techniques **is not reimbursable:** 
  - a. Screening for anal cytologic abnormalities (anal pap smear).
  - b. Screening for anal HPV infection.
  - c. Screening using cell-free DNA techniques (e.g., Guardant Shield™).

### **Procedure Codes**

The following is not an all-encompassing code list. The inclusion of a code does not guarantee it is a covered service or eligible for reimbursement.

#### Codes

81327, 81528, 82270, 82274, 87624, 87625, 88112, 0500T, 0464U, 0537U

# **Policy Update History:**

Approval Date	Effective Date; Summary of Revisions
04/28/2025	08/08/2025; Document updated with literature review. The
	following changes were made to Reimbursement Information:
	#2: added Cologuard Plus™ as reimbursable once every 3
	years; #5: added "Screening using cell-free DNA techniques
	(e.g., Guardant Shield™) as not reimbursable. Added codes
	0464U and 0537U. References revised.
04/29/2024	01/15/2025: Document updated with literature review. The
	following changes were made to Reimbursement Information:

	Revised from #1 to remove the direct visualization tests listed: colonoscopy, computerized tomography, and flexible sigmoidoscopy. Removed from #4 colon capsule endoscopy.
	References revised.
11/01/2023	11/01/2023: New document. Colorectal cancer screening was previously addressed on CPCPLAB007 Preventive Screening in Adults.
