

2022 Prescription Drug Benefit Changes – Moving to Performance Drug List

Starting January 1, 2022 (or on your group's 2022 renewal date), some pharmacy benefit plans may be based on a new prescription drug list – Performance Drug List. Today, your plan may be based on the Enhanced Drug List.

If this drug list change applies to you*, many prescription drugs will remain covered on your new list. But, some drugs you use may:

- Move to a higher or lower drug tier
- Be added or removed from the new drug list
- Have a new special requirement (prior authorization, step therapy or dispensing/quantity limit)

Below is a list of drugs in alpha order that will have one of these changes made. *If you have a keyboard, you can search for a drug name by using the Control and F keys, or go to Edit in the drop-down menu and select Find/Search. Type in the word or phrase you are looking for and click on Search.*

What you need to know:

- Talk with your doctor if any of these changes affect drugs you're currently using.
- Coverage for new drugs added to your plan will begin when your plan renews or starts on or after January 1, 2022.
- If your drug has been removed from coverage, ask your doctor about your options. Often, a covered generic or brand alternative may be available. Your doctor can also ask for a drug list coverage exception, including any drugs you may have had a prior approval for but will no longer be covered. To start this process, your doctor can call us at the number listed on your Member ID card.
- If your drug has moved to a higher drug tier (e.g. tier 03 to tier 04), ask your doctor if a lower-cost alternative might be right for you.
- Your out-of-pocket costs may be less for drugs that move to a lower drug tier (e.g. tier 02 to tier 01).
- If your drug has a new special requirement, your doctor may need to submit a request to us before you may receive coverage. Your doctor can find pre-approval forms at bcbsnm.com/provider.
- Be sure to review the full current Performance Drug List at bcbsnm.com/rx-drugs/drug-lists/drug-lists. This list is updated only once a year.
- Call the Customer Service number listed on your Member ID card if you have any questions.

****Not all members' benefits will make a drug list change. If your benefit plan is not changing to the Performance Drug List, these changes will not apply. Check your benefit materials or call the customer service number on your Member ID card if you have any questions about your benefits.***

Move to Performance Drug List Changes – Effective on or after January 1, 2022

* Drug Tier Key: 01=Preferred Generic, 02=Non-Preferred Generic, G=Generic Tier, 03=Preferred Brand, 04=Non-Preferred Brand, N/A=Does/did not apply

** Special Requirements Key: PA=added to Prior Authorization program, QL=new Dispensing/Quantity Limit applied
