Alphabetical Index....362

Providers by Specialty Index..375

Introduction

Welcome to the NMRHCA Premier 3-tier plan. As a NMRHCA member, a plan administered by Blue Cross and Blue Shield of New Mexico (BCBSNM), you have access to two statewide network of providers in New Mexico. This means you receive maximum health care benefits, the freedom to make choices, and the flexibility to choose providers that meet your needs. What's more, you will not need a referral to see any physician in the network. This means it is easy for you to find the health care providers you need when you need them. All of the providers in this directory are contracted for the NMRHCA Premier 3-tier plan administered by BCBSNM. Specialists in this directory are providers who you can visit without receiving BCBSNM authorization.

How the NMRHCA Premier 3-tier plan Works

You get the highest level of benefits when you seek services from a Blue Preferred℠ provider. This top tier offers an exclusive statewide network of providers that you will have access to and receive the highest level of benefits. You have the choice to get care from providers within the larger PPO network, but will pay higher out-of-pocket costs. You will pay the highest out-of-pocket costs if you choose an out-of-network provider. You may also have to pay those fees up front.

Here's how it works and how it can help save you money:

Tier 1 – Pay the least out-of-pocket costs by using providers within the Blue Preferred network and get the highest level of benefits.

Tier 2 - Statewide PPO and national network of contracted PPO providers

Tier 3 - Pay the highest out-of-pocket costs by choosing an out-of-network provider.

Coverage by tiers

- Tier 1- Blue Preferred – Statewide network with a higher concentration of providers in the Albuquerque four-county area (Bernalillo, Sandoval, Torrance, and Valencia counties)
- Tier 2 – Statewide PPO and national network of contracted PPO providers
- Tier 3 – Out-of-Network (these providers do not contract with BCBS)

Directory Updates

Providers may leave or join the Blue Preferred and PPO network. You are urged to check with your provider before undergoing treatment to confirm their Blue Preferred or PPO status. You can also call the customer service department at the toll-free telephone number listed on the back of your BCBSNM ID card. You can locate a Blue Preferred or PPO provider via our website at www.bcbsnm.com. Click on "Find a Doctor with Provider Finder®" to search by name, specialty, or location. The Provider Finder is the most current provider listing and is updated daily.

What to do in an Emergency: If an emergency occurs, call 911 or your local ambulance, or go to the nearest emergency care facility. Emergency care means health care services provided in a hospital emergency room, freestanding emergency medical care facility, or comparable emergency facility to evaluate and stabilize medical conditions of a recent onset and severity, including, but not limited to, severe pain that would lead a prudent layperson, possessing an average knowledge of medicine and health, to believe that the person's condition, sickness, or injury is of such a nature that failure to get immediate care could result in:

• Placing the patient's health in serious jeopardy

• Serious impairment of bodily functions

• Serious dysfunction of any bodily organ or part

Introduction - continued

- Serious disfigurement
- In the case of a pregnant woman, serious jeopardy to the health of the fetus

Call your Primary Care Physician (PPP) within 48 hours of the emergency treatment or when admitted to the hospital from the emergency room.

Essential Community Providers: There are various types of essential community providers (ECPs) that participate in the Blue Preferred Plus Network. Many ECPs are providers that have received government support to provide health care to many local communities. The ECPs identified in this directory include federally qualified health centers, specific types of hospitals, family planning providers, and various other ECP types.

Helping You Stay Healthy to Control Costs: Your NMRHCA Premier 3-tier plan encourages preventive care that can help you identify health problems at an early stage. Your preventive care benefits include coverage for services such as physical assessments, well-woman exams and immunizations. If you aren't sure of the preventive services that are right for you, talk to your Provider.

Primary Care Physicians (PCPs)

Primary Care Physicians are professionals who have either an MD or DO degree and are licensed to practice medicine. PCPs focus on the "whole person" and help you coordinate your health care, including referrals. PCPs include General Practitioners (doctors who are licensed, but do not have residency training), as well as physicians who have had residency training in these medical specialties: Family Practice, Internal Medicine, and Pediatrics. Additionally, some Obstetrician/Gynecologists choose to serve as PCPs for their women patients.

Primary Care Providers

Primary Care Providers are non-physician health care professionals such as Certified Nurse Practitioners who have had additional advanced training in providing primary care. They focus on the "whole person" and can coordinate your health care, including referrals.

Behavioral Health Practitioners

To receive benefits for behavioral health and/or chemical dependency, care must be coordinated by our Behavioral Health Unit. Either the member or the provider must call 1-888-898-0070 to obtain preauthorization for behavioral health and/or chemical dependency services.

Failure to obtain preauthorization may result in a denial of benefits. The fact that a provider is listed here does not make services received from that provider automatically eligible for benefits. Services must be covered under your health plan in order to be eligible for any benefits.
