Blue Cross and Blue Shield of New Mexico (BCBSNM) administers the preventive drug benefit for your group's high deductible health plan ("HDHP"), which has been designed for use with Health Savings Accounts ("HSAs"). The preventive drug benefit program includes categories of prescription drugs that are frequently used for preventive purposes. If your doctor has prescribed any of them to you for preventive purposes, then you and your HSA-eligible dependents may have coverage before satisfying your HDHP deductible.

This preventive drug list will be reviewed periodically and is subject to change. Coverage of all medications is still subject to HDHP limitations, exclusions and out-of-pocket requirements (for example, your prescription drug payment levels).

Please be reminded that Health Savings Accounts (HSAs) have tax and legal ramifications. Blue Cross and Blue Shield of New Mexico does not provide legal or tax advice, and nothing herein should be construed as legal or tax advice. These materials, and any tax-related statements in them, are not intended or written to be used, and cannot be used or relied on, for the purpose of avoiding tax penalties. Tax-related statements, if any, may have been written in connection with the promotion or marketing of the transaction(s) or matter(s) addressed by these materials. You should seek advice based on your particular circumstances from an independent tax advisor regarding the tax consequences of specific health insurance plans or products.
